

## GASOLINE ENGINE

The A-iPower gasoline engines provide power for residential and light commercial applications. The engine can be used to replace old, worn-out engines, as well as power small vehicles, such as go-karts. Uses include pumps, blowers, mowers, small vehicles, pressure washers, lawn and garden equipment, agriculture equipment, and tools and construction equipment. The 7hp, 4-stroke OHV single-cylinder engine makes it an ideal replacement for most standard engine configurations.
