

INVERTER GENERATORS

A-iPower's SUA2000i and SC2000i are equipped with inverter technology, which electronically regulates the generator to deliver only the power required by the appliances connected to it. This allows the generator to run at slower speeds when not at full power output.

Inverter technology also provides cleaner, very stable power similar to the power delivered by a utility, meaning it's safe for electronics, such as televisions, tablets, and other power sensitive equipment.

The portability, quieter operation, and longer run times of the inverter generators make them well-suited for camping, RV, marine, tailgating, and other uses in the outdoor recreation market.

SUA2000i & SC2000i

SUA2000i INVERTER GENERATOR

- 2,000 Starting Watts – 1,600 Running Watts
- Warranty: 2-Year Residential
- Built-In / Integrated Parallel Kit – Cables INCLUDED
- 79cc Senci Engine, OHV
- Multi-Switch™ - ON/OFF for Engine, Choke & Fuel
- 65 dBA – Quiet Operation
- 30 Amp RV Adapter – INCLUDED
- Safe Power for Sensitive Electronics
- EPA / CARB

SC2000i INVERTER GENERATOR

- 2,000 Starting Watts – 1,600 Running Watts
- Warranty: 2-Year Residential
- Built-In / Integrated Parallel Kit – Cables INCLUDED
- 79cc Yamaha Engine, OHV
- Multi-Switch™ - ON/OFF for Engine, Choke & Fuel
- 65 dBA – Quiet Operation
- 30 Amp RV Adapter – INCLUDED
- Safe Power for Sensitive Electronics
- EPA / CARB
